OTHER LIMITATIONS

1. This warranty applies only to Product(s) installed on property located within the 48 contiguous states of the U.S.A.
2. This Warranty covers only genuine ALSCO Brand Products and It Is the Property owner's responsibility to verify that the Products are ALSCO Brand Products by verifying that the first six digits of the UPC number on the label are 757543.
3. Products that have been refinished or painted in any way without the written authorization of ARP are not covered by this warranty.
4. There are no warranties on the Products or available remedies other than those set forth in this Warranty. ARP is not liable to you for breach of any other oral or written express warranties, if any, given to you by, for example, contractors, applicators, dealers, or distributors of the Products.
5. Certain Products are designed for use as water diverters and small flashings and should not be used as roofing materials.
6. This Warranty applies to only the Products listed and does NOT cover other products sold under the ALSCO Brand, including for example, rain gutters, gutter leaf protection devices, downspouts or accessories used in their installation.

REGISTRATION OF WARRANTY COVERAGE

IN ORDER FOR YOU TO BE ELIGIBLE FOR COVERAGE UNDER THIS WARRANTY, THE ATTACHED WARRANTY REGISTRATION CARD MUST BE COMPLETED AND SIGNED BY YOU AND THE DEALER WHO INSTALLED YOUR PRODUCTS AND IT MUST BE RETURNED TO ARP WITHIN THIRTY (30) DAYS AFTER COMPLETION OF THE INSTALLATION.

TRANSFER OF WARRANTY

This Warranty is transferable by you to subsequent owners of the Property; provided, however, that ARP receives written notice of the transfer of title of the Property within thirty (30) days of the date that ownership is transferred; provided, further, that this Warranty may be transferred only one time. Failure to so notify ARP will relieve ARP of any further obligations under this Warranty. In the event you transfer this Warranty, the Warranty period will be thirty (30) years from the date of installation.

CARE AND MAINTENANCE INSTRUCTIONS

NORMAL CONDITIONS

The finish on these Products, like any other colored or painted surface, is susceptible to chalking and some degree of color change due to normal weathering and, also, to dirt accumulation, depending on the atmosphere to which your home is subjected. Under normal conditions, objectionable superficial surface dirt can be removed by washing with a garden hose and a soft-bristled brush. While weathering occurs through exposure to sunlight or weather extremes, the factory applied finish resists the associated problems of peeling, chipping and flaking. In addition to the longer term period of resistance to chipping, peeling and flaking, the colored coatings are formulated to resist fading due to normal weathering for a reasonable period of time.

The finish gradually releases microscopic particles of pigment in the form of a light powder. This "controlled chalking" is the best way for exposed surface coatings to weather, while providing a self-cleaning feature which helps eliminate loose surface dirt during normal rainfall.

UNUSUAL CONDITIONS

In Industrial areas where a more thorough cleaning is necessary or for stains resulting from tree sap, insecticides, chimney fumes, etc., the finish should be washed with a sponge or soft-bristled brush and a solution of detergent and water (1/3 cup Tide per gallon of water, for example). Immediately rinse surfaces thoroughly with a garden hose. Avoid vigorous rubbing as it can cause undesirable glossy areas over the finish. A rotary soft-bristled brush equipped with extension handle is handy for reaching high areas. To minimize streaking, wash from bottom to top.

In some locales, mildew may appear as black spots in the accumulated dirt. Mildew may be removed with the following solution. The solution may be sprayed or sponged on or applied with a soft-bristled brush and allowed to remain for 15 to 20 minutes and then rinsed with a hose. An adequate rinse should be assured to cleanse the finish and also further dilute the solutions so as not to harm shrubbery. It is also advisable to test your solution or cleaner on an inconspicuous area before application to large areas.

- SOLUTION:**
- 1/3 cup detergent (Tide, for example)*
 - 2/3 cup trisodium phosphate (Sollax, for example)*
 - 1 qt. sodium hypochlorite 5% solution (Clorox, for example)*
 - 3 qts. Water

***CAUTION:** Greater concentrations may cause damage to the finish. Do not use abrasive or solvent type cleaners or paint removers. Avoid skin contact or getting the solution in eyes. Always read and follow cleaning compound manufacturers' instructions.

CAULKING COMPOUNDS AND TAR

Mineral spirits may be used, in reasonable amounts, to remove caulking compounds or tar from the finish. Rinse immediately with clear water.

COVERAGE UNDER THIS WARRANTY

Subject to the terms and conditions set forth in this Certificate, Aleris Rolled Products, Inc. ("ARP") warrants that the ALSCO Brand Aluminum Siding, Aluminum Soffit, Aluminum Siding and Soffit Accessories, Aluminum Roof Moldings, Aluminum Fascias and Aluminum Trim Coil (the "Products") installed on the property identified in this Certificate and the attached Warranty Registration Card (the "Property") will not flake, chip, crack, peel, split, rot, or red rust under conditions of ordinary wear during normal and proper use and service, as a direct result of manufacturing defects; provided that the Products are installed according to ARP specifications and that the cleaning practices described on the reverse side of this Certificate have been followed.

HOW LONG DOES THIS COVERAGE LAST?

This Warranty will remain in effect for so long as at least one of the Property owner(s) identified in this Certificate and the attached Warranty Registration Application Card is living and owns an interest in the Property; provided, however, that all of the Property owners are natural persons and the Products are installed on a detached, single-family residence. If one or more of the Property owners is not a natural person (for example, if one or more of the Property owners is a corporation, unincorporated association, partnership, governmental agency, public agency, church or school) or if the Products are installed on a building that is not a detached single-family residence (for example, if the building is a condominium or duplex), the Warranty period will be thirty (30) years from the date the Products were originally installed.

WHAT YOU SHOULD DO IN THE EVENT OF A DEFECT

If the Products exhibit a manufacturing defect covered by this Warranty, simply write to Aleris Rolled Products, Inc. (ALSCO), Warranty Department, 1 Reynolds Road, Ashville, Ohio 43103, or call toll free at 1-877-906-6267 to request a claims package. IN ORDER TO QUALIFY FOR WARRANTY COVERAGE, YOU MUST REQUEST AND RETURN A CLAIMS PACKAGE WITHIN SIXTY (60) DAYS OF THE DATE THE DEFECT IS FIRST DISCOVERED OR REASONABLY COULD HAVE BEEN DISCOVERED.

ARP will reply to you within a reasonable period of time after it receives your claim, and it reserves the right to require you to furnish additional information or evidence. Further, ARP reserves the right to inspect the Product(s) claimed to be defective within a reasonable period of time after it receives your claim.

REMEDIES UNDER THIS WARRANTY

ARP will, at its sole option, either replace, refinish, or repair the defective Product(s) in accordance with the following paragraph if it determines that the claimed defect is covered by this Warranty.

If the defect is reported to ARP during the first three (3) years following the date of original installation, ARP will pay all of the costs of refinishing, repairing, or replacing the defective Product(s). If the defect is reported to ARP during the fourth (4th) year following the date of the original installation, ARP will pay 90% of the costs of refinishing, repairing or replacing the defective Product(s). For each succeeding year thereafter, through the twentieth (20th) year following the date of original installation, ARP's portion of such costs will be reduced by 5% per year. If the defect is reported to ARP during the twenty-first (21st) year following the date of original installation, or at any subsequent time during the Warranty period, ARP will pay 10% of such costs. For example, if the defect is reported to ARP during the seventh (7th) year following the date of installation ARP will pay 75% of the costs of refinishing, repairing or replacing the defective Product(s). ARP reserves the right to require you to pay in advance your share of the cost for refinishing, repairing or replacing the defective Products(s). Any costs or expenses beyond those expressly assumed by ARP under this Warranty shall be the responsibility of the Property owner(s).

In lieu of repairing, replacing or refinishing the defective Products(s), ARP reserves the right to pay you the lesser of (1) an amount of cash equal to the costs ARP would incur were it to elect to repair, replace or refinish the defective Product(s), including all applicable labor costs or (2) an amount of cash equal to, but not to exceed the purchase price paid for the defective Product(s) by the original purchaser, including material and labor; provided, however, that the amount paid to you will be subject to the proration schedule set forth in the preceding paragraph.

The Warranty period for any refinished, repaired or replaced Product(s) will be the remaining unexpired portion of the original Warranty period for your Product(s).

ARP reserves the right to discontinue or modify any product line. In the unlikely event that any of the original Products are no longer available, and ARP at its sole discretion elects to replace the Products in lieu of repairing or refinishing the Products, ARP will substitute products of comparable quality. ARP also reserves the right to discontinue particular colors. If any of the original Product colors are not available, ARP will in good faith undertake to substitute a currently available color that most closely matches the original color. Since a color or gloss variance may occur between replacement

Product(s) and the originally installed Product(s) due to the normal weathering and aging of the originally installed Product(s), this will not be indicative of a defect in either the replaced, repaired, or refinished Product(s) or in the originally installed Product(s).

THE WARRANTIES SET FORTH IN THIS CERTIFICATE ARE THE ONLY WARRANTIES EXTENDED BY ARP IN CONNECTION WITH YOUR ALSCO BRAND PRODUCT(S) AND ARE IN LIEU OF ALL OTHER WARRANTIES EXPRESS OR IMPLIED INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

THE REMEDIES SET FORTH IN THIS CERTIFICATE SHALL CONSTITUTE YOUR EXCLUSIVE REMEDIES AND ARP'S SOLE LIABILITY. IN NO EVENT SHALL ARP BE LIABLE FOR SPECIAL, EXEMPLARY, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTIES OR ANY OTHER CLAIM, WHETHER ARISING IN TORT, BY CONTRACT OR PURSUANT TO STATUTE, IN CONNECTION WITH YOUR PRODUCT(S).

Some states do allow the exclusion or limitation of incidental or consequential damages, so the above exclusion or limitation may not apply to you. This Warranty gives you specific legal rights, and you may also have other rights, which vary from state to state.

CONDITIONS THAT AREN'T COVERED BY THIS WARRANTY

This warranty covers only the manufacturing defects described in the Certificate and only if they arise from ordinary wear during normal and proper use and service. It does not cover, for example, defects attributable to causes or occurrences beyond ARP's control and unrelated to the manufacturing process, including, but not limited to faulty or improper installation (e.g., waving, buckling, oil canning, other distortions), lap abrasion, warping or distortion due to excessive heat sources (e.g., barbecue grills) or excessive reflective heat sources, (e.g., window reflection), installation of Product(s) in contact with dissimilar materials as discussed below, normal weathering, oxidation, exposure to corrosive atmospheres (such as those contaminated with salt or salt spray, acid rain, harmful chemicals, fumes or vapors), air pollution, mold, mildew, unreasonable use, misuse, physical abuse, accidental damage, vandalism, use of incompatible accessories, fire, flood, earthquake, lightning, ice or windstorms, hail or other acts of God, crazing or cracking of the Product's paint due to field forming in cold temperatures, wind-borne objects, building settlement or shrinkage or structural failures (including walls and foundations), or the use of harmful cleaning compounds or pesticides.

Fading and color change are not covered by this Warranty. Weathering (i.e., exposure to sunlight and extremes of weather and temperature) and the normal aging process will cause any colored surface to fade, darken, chalk or acquire a surface accumulation of dirt, mold, mildew or stains. The severity of these conditions depends on air quality, the geographic location of your Property and other local conditions (including unequal exposure of the installed Products(s) to the sun and other elements) over which ARP has no control.

Your Product(s) are not intended for use within one (1) mile of any body of salt water, and this Warranty will not apply to any Product(s) installed within one (1) mile of any body of salt water.

Direct contact of aluminum Product(s) with certain dissimilar materials or contact with the water run-off from such materials is likely to result in corrosion, which is not covered by this Warranty. Therefore, care should be exercised to avoid contact of aluminum with any corrosive materials during installation, including, but not limited to: pretreated lumber, concrete, masonry cement, stucco, fiber cement products, salt, corrosive chemicals, dissimilar metals (copper, zinc, steel, etc.), and roofing systems made with metallic granules of such dissimilar metals.

Notwithstanding the exclusion of corrosion from this Warranty, ARP warrants the Products against corrosion to the extent such corrosion results from direct contact of the Products with the following reinforced fiber cement exterior cladding and trim board building products:

- Manufactured by **James Hardie Industries NV:** Hardieplank® lap siding; Hardiepanel® vertical siding; Hardieshingle® siding; Hardiesoffit® panels; Hardietrim® planks; Artisan® lap siding and Artisan® trim products; whether primed or coated with ColorPlus® Technology
- Manufactured by **CertainTeed Corporation:** WeatherBoards™ fiber cement lap siding, vertical siding, soffit, shapes and trim boards; whether primed or coated with ColorMax®

The foregoing warranty does not apply to corrosion resulting from any other reason other than the direct contact of the Products with any of the above-listed reinforced fiber cement exterior cladding and trim board building products.

WARRANTY REGISTRATION APPLICATION CARD

For ALSCO Brand Aluminum Siding, Aluminum Soffit, Aluminum Siding and Soffit Accessories, Aluminum Fascias, Aluminum Roof Moldings and Aluminum Trim Coil Lifetime Limited Warranty.

This card and the attached Warranty Certificate are to be filled in and signed by both the siding dealer and Property owners(s). Mail only this card to ARP after installation has been completed. Your Lifetime Limited Warranty will be registered and will be acknowledged with a letter that confirms registration.
